- Visual Studio Code, Chrome DevTools

summary

Dedicated and detail-oriented Web Developer with practical experience in front-end development, leveraging skills in HTML, CSS, JavaScript, and popular frameworks like React and Tailwind. Proven ability to design visually appealing, responsive websites, and collaborate effectively within teams to deliver optimized and scalable solutions. Committed to staying updated with the latest technologies and eager to contribute to high-impact projects while continuously advancing technical proficiency.

Work Experience

Frontend Developer

Vigorous Technologies

October 2023 – March 2024

- Gained proficiency in HTML, CSS, and JavaScript for building modern, interactive websites and applications.
- Designed and developed web layouts using Bootstrap and Tailwind CSS to ensure cross-browser compatibility and responsiveness.
- Collaborated with senior developers, learning industry standards and best practices in coding, performance optimization, and version control using Git.
- Contributed to various front-end projects, continuously enhancing user experience and interface design.
- Familiar with testing tools and methodologies to ensure bug-free and optimized code.

Projects

POS System:

- Contributed to a Point of Sale web application, collaborating on frontend design and ensuring seamless functionality.

Amazon Clone:

- Assisted in developing a mock-up of Amazon's online platform, focusing on interactive elements and responsive design.

Coin Sensei:

- Worked on a cryptocurrency price tracking platform, utilizing JavaScript for real-time updates and user interface interactions.
